

Volunteer with North Warwickshire Citizens Advice

The cost-of-living crisis has left many struggling to cope. At NWCA we know that many local households have been affected and that the impact of increased costs has been worse for households on lower incomes. Our volunteers are making a positive difference to peoples' lives and a positive contribution to local communities during these challenging times. If you can spare some time every week, we have a range of roles that flex around the time you have to offer and the skills you want to use.

Some of our current roles include:

Advisers (full training given)

Trustee

Research & campaigns

Admin & customer services

Company secretary

Treasurer

IT support
